

What did parents say about the "Preschool Play Classes with an adult"?

Roya

Mom of 2 adorable boys

"This is our second year doing the parent-and-tot class and we look forward to it every week! Its such a great way to spend quality time together. Each week features a new theme with a thoughtfully chosen book and matching craft plus fun stations... It's also a great opportunity for children planning to enter the preschool program to get comfortable with the classroom and teachers ahead of time!"

Amy

Mom of 2 amazing munchkins

"My two children and I had the pleasure of attending the Preschool Play group on Fridays at Magic Circle. It was such a wonderful experience for my children to learn, play with others and explore the classroom before my son starts preschool in the fall. He was able to get comfortable in the space and even meet some classmates... Thank you for all of the thoughtful and engaging activities and we look forward to more memories with Magic Circle!"

Mansooreh

Mom of a sweetheart

"Magic Circle is great! Mme Laurie and her staff have the passion to help children grow and have fun, and you can feel that in every activity they organize for the children. I have been taking my son to the parents and tots sessions... for the last 8 months. They have fun activities: reading, craft, songs, water and sand tables... and little experiments. It's a great place for children to learn and grow, and also for their parents to connect with each other. My son had severe social anxiety, and he has improved a lot in the last 8 months. I am sure Magic Circle played a huge role in his improvement. I am only too sad I didn't know about Magic Circle earlier..."

Stephanie

Mom of such a sweet boy

My son and I love Magic Circle Preschool! The thoughtful approach makes each week something my son looks forward to. The program is an ideal balance between structured learning and open-ended play, fostering both growth and creativity. I would definitely recommend Magic Circle to any family seeking a nurturing and enriching preschool environment.
